

The Wadden Sea:

New developments – new perspectives – new links

Observation – Points of inspiration

1. Continue to safeguard and maintain the natural processes of the Wadden Sea.
2. Continue and enhance the Wadden Sea Cooperation to meet the future challenges and needs with a better harmonization of protection schemes and integration with its surroundings.
3. Tackle the ‘image’ problem through professional and affordable interpretation centers and make the people living at the coast proud of their heritage.

The Wadden Sea:

New developments – new perspectives – new links

Observation – Points of inspiration

4. Education in a trilateral context is essential and World Heritage and national parks will support developments

5. Marketing of the World Heritage Site with a common approach, responsible and sustainable.

6. Linking and learning - International cooperation
